Hotel customs throughout the world are varied. A hotel in France is on wheels and turns so that any room can be given sunlight. Regulations governing the length of bed-sheets have been made in certain states. Probably the most unique custom prevails in Tempe, a town in the Salt River Valley, Arizona. Here the proprietor refunds the hotel charges to all his patrons on any day the sun does not shine. At first this seems benevolent but looking into the matter we find that he has been called upon to remit to his guests only once in the last five years. Guaranteeing sunshine is an original feature.

Your Town

More towns die for want of confidence on the part of business men and lack of public spirit than any other cause. When a man in search of a home or a business location goes into a town and finds everything brim full of hope and enthusiasm of the prospects of the place, and all earnestly at work to build it up, he soon becomes imbued with the same spirit, and as a result he drives down stakes and goes to work with the same interest. When, however, he goes to a town where every one expresses doubt and apprehension for the future prosperity of the place, moping about and indulging in mournful complaints, he naturally feels that it is no place for him, and he at once shakes the dust off his feet while he pulls out with all possible speed for some other place.

Consequently, try and make a live, enterprising town out of the town in which you live. When you are working for or saying a good thing for your town you are accomplishing all the more for yourself.

Libelous

A Boston Baked Bean baseball nine wants to play the Flagstaff nine. The beanites should bring their beans cooked, for the altitude of the Skylight city is against the proper cooking of beans.—Prescott Courier.

Cottolene

"Nature's Gift
from the
Sunny South"

It's too late to lock the stable when the horse has been stolen—too late to care for your stomach when indigestion is upon you. Why not take time by the forelock by dispensing with hog lard—the breeder of nine-tenths of all indigestion, and insist instead that all your food be cooked with *Cottolene*—a pure, vegetable shortening which makes healthy, digestible food?

Cottolene comes from the cotton fields of the Sunny South. It is a clean product, protected by patent air-tight tin pails to insure freshness and freedom from contamination. It is recommended by physicians as being fully as healthful as olive oil.
